

Microbiology Laboratories Australia provides world-class commercial microbiology analyses for agriculture, forestry and the environment.

Our aim is to empower farmers, agronomists, natural resource managers, fertiliser manufacturers and Government to make informed decisions about the use and management of microbiology in soil, water, compost, fertilisers and other media by providing:

- Reliable and affordable microbiological analyses
- Support to assist in the use and interpretation of analyses
- Education and training
- Advice, and research and development consulting services
- Quality assurance services to industry and Government

We are committed to bringing proven, scientific, research-based technology to our customers in a clear, concise, no-nonsense manner to help them make informed decisions and increase productivity.

We believe that this will also help to develop and refine the use of microbiology in agriculture, natural resource management and fertiliser production to the benefit of our primary industries, productivity, health, technology and environment.
